

Elective Geography  
Human Society and Its Environment (HSIE)

# What's elective Geography all about?

---

Simply put, all Year 9 students study Geography in Year 9.

This is an opportunity to study some additional Geography on topics NOT covered in the Year 9 curriculum / course.

---

# What is Geography?

---

Geography is the relationships between people and environments. This happens through the investigation of contemporary geographical issues and their management.

# Content areas

---

**100 hrs - A choice of 3 content areas**
